This document is exclusively intended for healthcare professionals. Surgeons are urged to exercise their professional clinical judgment in determining the suitability of a specific product for a particular patient. Corentec does not provide medical advice and recommends that surgeons receive training on the usage of any product before incorporating it into surgical procedures.

The information presented serves to demonstrate a Corentec product. Surgeons should always refer to the package insert, product label, and/or instructions for use, which includes guidelines for cleaning and sterilization (if applicable), before utilizing any Corentec product. Product availability may vary across markets due to regulatory and/or medical practices. For inquiries about the availability of Corentec products in your region, please reach out to your Corentec representative.

CorLock

Suture Anchor

Redefined for Ease of Use

Focused on surgical precision and patient care, CorLock offers an easy-to-use suture anchor, combining reliability with efficiency. Discover how simplicity and advanced care converge with CorLock.

www.corentec.com

Enhancing Simplicity & Efficiency

We focus on the needs of both surgeons and patients, ensuring minimally invasive procedures with utmost precision and efficiency. Our suture anchor offers unmatched ease of use without compromising on the strength and reliability you trust. Experience the CorLock difference: where simplicity and advanced surgical care converge.

Simplified Suture-passing

Thoughtful design for hassle-free, efficient surgery.

Enhanced Handling with Unique Design

Unique design with suture passer, non-slip handle, and low torque for easy rotation.

Trusted and Reliable Provider

Trust in Korea's top artificial joint company, a leader in quality and reliability.

Quick and Agile Responsiveness

Leverage our domestic advantage for rapid and flexible responses to your needs, ensuring unparalleled service.

CorLock Selfix

Product Name	Materials	Size
CorLock Selfix	β-TCP+PLGA, Peek	Ø4.75mm x 14.7mm
CorLock Selfix	β-TCP+PLGA, Peek	Ø5.5mm x 14.7mm

Dual Thread

- Dual thread type anchor to enhance engagement in both cortical and cancellous bone.
- Large-spaced spirals are positioned in cancellous bone, while tight spirals bind to cortical bone, enhancing tensile strength.

Ø4.75mm
Ø5.5mm

Easy Grip Handle

- Comfortable and easy-to-grip grooved shape handle for better handling and turning with non-slip texture.

Suture Passing

- Maximum load 12 lines.

Suture Passor

- A unique wing design that allows for easy gripping and removal, even by fingers.

Strong Eyelet

- The pointed peek design enables tool-free **self-punching** option.

* For hard bone, it is advised to use an instrument.

Secure, Easy-Release

- Handle design that securely holds sutures in place while also allowing for easy release.

Easy Grip Handle

- Comfortable and easy-to-grip handle for easy handling and rotation.

Dual Thread

- Dual thread type anchor to enhance engagement in both cortical and cancellous bone.
- Large-spaced spirals are positioned in cancellous bone, while tight spirals bind to cortical bone, enhancing tensile strength.

CorLock Biocomposite 4.75 / 5.5

Product Name	Materials	Size	Suture Spec
CorLock Biocomposite	β-TCP+PLGA	Ø4.75mm x 17mm	2 Sutures, #2 UHMWPE
CorLock Biocomposite	β-TCP+PLGA	Ø4.75mm x 17mm	3 Sutures, #2 UHMWPE
CorLock Biocomposite	β-TCP+PLGA	Ø5.5mm x 17mm	2 Sutures, #2 UHMWPE
CorLock Biocomposite	β-TCP+PLGA	Ø5.5mm x 17mm	3 Sutures, #2 UHMWPE

CorLock Biocomposite 3.0

Product Name	Materials
CorLock Biocomposite	β-TCP+PLGA
CorLock Biocomposite	β-TCP+PLGA
Size	Suture Spec
Ø3.0mm x 11.9mm	1 Suture, #2 UHMWPE
Ø3.0mm x 11.9mm	2 Sutures, #2 UHMWPE

Secure, Easy-Release

- Handle design that securely holds sutures in place while also allowing for easy release.

Easy Grip Handle

- Comfortable and easy-to-grip handle for easy handling and rotation.

Long shaft design

- Enables deep insertion into the body.

Push Type Design

- Wedge-shaped design for impact insertion.
- Primarily used in **small joints** where taper insertion is challenging.

For Ankle, Elbow, Small Joint

- Compared to others, our anchors are smaller, resulting in less bone loss and facilitating revision surgery.
- Small sized anchors and needles allow for use in small joints like the ankle and elbow.

CorLock Biocomposite Needle 3.0

Product Name	Materials	Size	Suture Spec
CorLock Biocomposite Needle	β-TCP+PLGA Needles	Ø3.0mm x 11.9mm	2 Sutures, #0 UHMWPE

CorLock Ordering Information

Product Name	Design	Type	Size	Model Name	Details
CorLock Selfix		CKPN type	Ø4.75	NS.KPN.4750	- PLGA/β-TCP(Screw), PEEK(Tip)
			Ø5.5	NS.KPN.5500	- PLGA/β-TCP(Screw), PEEK(Tip)
CorLock Biocomposite Anchor		CKCN type	Ø4.75	NS.KCN.4750	- PLGA/β-TCP
			Ø5.5	NS.KCN.5500	- PLGA/β-TCP
			Ø4.75	NS.BN1.4752	- PLGA/β-TCP - 2sutures #2 UHMWPE
			Ø4.75	NS.BN1.4753	- PLGA/β-TCP - 3sutures #2 UHMWPE
CorLock Biocomposite Needle Anchor		CSL type	Ø3	NS.SL1.2401	- PLGA/β-TCP - 1suture #2 UHMWPE
			Ø3	NS.SL1.2402	- PLGA/β-TCP - 2sutures #2 UHMWPE
			Ø3	NS.SN1.2402	- PLGA/β-TCP - 2sutures #0 UHMWPE with needles
